

Annotation - IMPORTANT - regarding versions.

If the wording *NUMBER of the contract is used - it means that it applies to all versions of the project token contracts that could be purchased through the WEB3 website and those listed in the introduction .

WHITEPAPER AND LEGAL TERMS

Smart contract: 0x033855E32E015

The token complies with the legal definitions of virtual currencies, which means that it has start-up liquidity on the DEX exchange, and its exchange rate is independent of the token creators. When buying a token through the WEB3 website and mechanism, it is important to remember that this decision is associated with a significant margin for the team. The buyer must be aware that he can purchase the token at a better offer on the DEX exchange. However, by choosing to purchase through the WEB3 mechanism, the buyer can benefit from the convenient and secure purchase process offered by the token's creators. It is worth remembering that the buyer, by purchasing through this mechanism, confirms that he is fully aware that it is possible to purchase the token also on the DEX exchange at a better offer. (1) Smart contract interpretation

In a simple word, "smart contract" is a contract (contract) agreement performed programmatically.
